Bonds: News & Comments

Liquidity up slightly

Banking sector liquidity rose for the second consecutive day yesterday, up UAH0.70bn to UAH102.15bn, as banks' correspondent accounts with the NBU increased UAH0.27bn to UAH41.19bn and total CDs outstanding rose UAH0.43bn to UAH60.96bn.

Investment implications: Liquidity continued to recover prior to month-end tax payments, supported by the NBU's FX auctions and small ON loans for banks. Today, we should see an increase in liquidity with a possible decline at the end of the week due to bond purchases at the primary auctions and tax payments.

Taras Kotovych, Kiev, +38044 2200120 ext.724

Primary auction results

Yesterday, the MoF sold UAH706.27m of 2-year bonds as opposed to UAH180.60m of 3-year bonds sold a week ago. Also, the MoF sold 9-month bonds yesterday, but only the low volume of UAH567,000 (par value).

Investment implications: Yesterday's proceeds are the result of accepting all bids which are usually submitted at the same level of interest rates as the MoF's cut-off interest rates set earlier this year for each offered maturity. Only one bidder purchased 9-month bonds and three bidders purchased 2-year bonds. Other bonds received no bids most likely due to different views on interest rates.

Taras Kotovych, Kiev, +38044 2200120 ext.724

Yield curve of the local bond market
