Bonds: News & Comments

Liquidity reallocates to CDs

Total CDs outstanding significantly rose yesterday, up UAH3.38bn to UAH41.358bn, the largest amount since 23 August 2016. At the same time, banks' correspondent accounts with the NBU fell UAH4.80bn to UAH33.54, the lowest level since February 2016. Finally, banking sector liquidity declined UAH1.42bn to UAH74.90bn.

Investment implications: *The NBU issued a new loan of UAH0.69bn to one bank while banks had to repay UAH0.80bn. Also, the NBU absorbed some funds via a relatively tepid FX auction on Wednesday. With no significant outflows to the NBU to impact liquidity, the NBU did not support liquidity. The MoF's small debt repayments on Wednesday should be once more divided between the NBU and the market, also having an insufficient impact on liquidity. This decline once more could be caused by low budget expenditures and no VAT refunds which were low from the beginning of the month even though budget proceeds were the largest this month.*

Taras Kotovych, Kiev, +38044 2200120 ext.724
