Bonds: News & Comments

Liquidity reallocates

Last month, liquidity hovered around UAH75bn, with a significant increase at the end of month due to a VAT refund. Since this month began, liquidity has fallen to last month's levels. Yesterday, banking sector liquidity declined UAH0.91bn to UAH 76.31bn as funds were reallocated from banks' accounts to CDs. Total CDs outstanding rose UAH1.08bn while banks' correspondent accounts with the NBU fell UAH1.99bn to UAH39.71bn.

Investment implications: The MoF continued to receive the usual amount of daily taxes amid few apparent expenditures. As the NBU also did not issue loans or hold FX auctions, liquidity could return to last month's balance. Yesterday's debt repayments appear to be mostly received by the NBU on bonds in its portfolio while the market received minor funds on VAT bonds and other issues. As a result, liquidity could decline further to around UAH75bn.

Taras Kotovych, Kiev, +38044 2200120 ext.724
